CMAI

"Combating Crime Against Children and Women Possible through Technology and Collaboration"

Contents

PART 1
CORE

Background

Kindly allow us to Quote Saskatoon Police Service detective sergeant Mr. Darren Parisien

> "There's offenders in every single community and there's kids in every single community. Where those two happen to cross paths, that's where victims are born."

Considering Our Mother Land

- There are many offenders
- There are many children
- Need to strengthen the law to combat the child offences
- Complexity of handling Cross boarder and Cyber Crimes
- Poverty percentage is very high (Parents are selling their children for money, Many homes are becoming Brothels)
- Growth of technology (Mobile Internet is with almost every user, especially with children)
- Parents are illiterate on the technologies
- India is highly vulnerable to track Travelling Sex Offenders
- As per Ministry of Women and Child Development Government of India, Study
  - 53.22% children reported having faced one or more forms of sexual abuse.
  - 50% abuses are persons known to the child or in a position of trust and responsibility.
  - Most children did not report the matter to anyone.

Here the Victims and Offenders are on the straight Cross path.

As a part of DISC Foundation's catalyst activity, we link various authorities by the potential synergism of each organization's respective fields. Hence we submit this Request for conducting a workshop with Kerala Government Home Department and Social Justice Department.

General Workshop Objectives

The objective of this workshop is

- To understand the existing worst situation of Online Child Abuse and Materials
- To familiarize the best practices of International Law Enforcement agencies while combating Child Abuse
- To understand in detail the role of collaboration, technologies and Hotline Canters while combating Child Abuse

- To form an action team for Developing a National Strategy for Combating Crime Against Children and woman

Workshop Attendants

1. Home department, Delhi Police and Other state Police
2. United Nation Organization like (UNICEF, WHO, UNODC, Etc)
3. Social Justice Department, Delhi Government
4. Education Department, Delhi Government
5. Relevant Civil Societies (NGOs)
6. **Any other relevant team can be added**

National Strategy to Combat Crime against Children and Women - Joint Action Team

At the end of this mission a coalition (Joint Action Team) that consists of various relevant stakeholders will be formed to develop and execute a **National Strategy to Combat Crime against Children and Woman**.

Workshop Outlines (Draft)

Day 1.	Opening
02-Sep-2013, Monday	
Timing	9:30 AM to 12:00 AM
Overview	This session outlines high level objectives and plans. The team will present General Internet Safety and vulnerable areas pertaining to children and society. Showcasing how "Hotline help" can curb these issues.
Focused audience	- Ministers - High level officers (Law enforcement, Administration) - Press - Top NGO Leaders - Industrial partners (ISPs/Technology providers/gadget providers/etc) - Government administrative Delegates from - Education - Social welfare departments - Health department - IT and Technology / Cybercell

Day 1.	Press Conference
02-Sep-2013, Monday	
Timing	12:15 PM to 1:00 PM
Overview	Making Cyber world a Safer Place (Zero tolerance to Children and Woman Abuse). Presenting the action plan in collaboration with International Law enforcement agencies.
Focused audience	- Press - Other related agencies

Lunch (1:00 PM to 2:00 PM)

Day 1. 02-Sep-2013, Monday	**International Collaborated Hotlines** **A Success Story By INHOPE** **(Webinar / Online Presentation from Amsterdam)**
Timing	2:00 PM to 3:00 PM
Overview	To present the key role of Internationally Collaborated Hotlines in the path of combating Online Child Abuses. Presentation will also showcase statistics and case studies of success stories. By this presentation DISC Foundations aiming to pitch the plan to Governments and Stakeholders for starting National Hotline in India
Focused audience	• High level officers (Law enforcement, Administration) • Law enforcement • Government administrative Delegates from o Education o Social welfare departments o Health department • IT and Technology / Cybercell

Day 1. 02-Sep-2013, Monday	**Travelling Sex Offenders and Tourism**
Timing	3:00 PM to 5:00 PM
Overview	Travelling Sex offenders / Sex tourism providers and their role in Cybercrime and internet usage for the purpose.
Focused audience	• High level officers (Law enforcement, Administration) • Law enforcement • Government administrative Delegates from o Education o Social welfare departments o Health department • IT and Technology / Cybercell

Networking Dinner with Officials (7:30 PM to 10:30 PM)

Day 2. 03-Sep-2013, Tuesday	**The Ugly Contents**
Timing	9:00 AM to 10:30 AM
Overview	Child Abuse Materials and self-generated erotic material and the role of the police in action against this. Presenting how "HOTLINE Center" can curb these issues

Focused audience	• High level officers (Law enforcement, Administration)
	• Law enforcement
	• Government administrative Delegates from
	    o Education
	    o Social welfare departments
	    o Health department
	• IT and Technology / Cybercell

Coffee Break (10:30 to 11:00 AM)

Day 2. 03-Sep-2013, Tuesday	**Solution**
Timing	11:00 AM to 1:00 PM
Overview	"Effect of the internet on law enforcement. Models of best practices and multi-organizational victim centric solution to child sexual abuse and other child welfare issues. Role of Hotline Center in the mission."

Focused audience	• High level officers (Law enforcement, Administration)
	• Law enforcement
	• Government administrative Delegates from
	    o Education
	    o Social welfare departments
	    o Health department
	• IT and Technology / Cybercell

Lunch (1:00 to 2:00 PM)

Day 2. 03-Sep-2013, Tuesday	**Joint Action Team Formation Meeting**
Timing	2:00 PM to 4:00 PM
Overview	End of this program a Join Action Team will be formed in coordination with all potential stakeholders to develop and execute the outcomes of programs. A "National Strategy for Combating Crime Against Children and woman (On/Offline)" is one of the potential outcome of this team
Targeted audience	- Delhi Police - Kerala Police - DISC Foundation - Workshop Deliverers (INTERPOL, RCMP) - NGO Decision Makers - Media - Industry Partners / Funding agencies
Day 3. Tour 04-Sep-2013, Wednesday	**Tour Delhi**
Overview	To entertain our guest by inviting them to some of our attraction in Delhi

Proposed Travel Schedule (Tentative)

Date (Year 2013)	Time	Description
Friday, Aug30	21:40	Ms. Janelle Depart from Toronto by Emirates
Saturday, Aug31	18:35	Arrive at Dubai
Friday, Aug 30	21:45	Mr. Mick depart from Lyon by Emirates
Saturday, Aug 31	06:15	Arrive at Dubai
Saturday, Aug 31		Mr. Mustafa From Abu Dhabi will join with them at Dubai Airport
Since the next flight is on 1-Sep @ 3:30 AM. We may arrange a reception to Mr. Moran at Dubai by Malayalee Associations		
Sunday, Sep1	9:15	All team Arrive at Trivandrum (Capital of Kerala State)
Monday, Sep2	09:30 - 16:00	Law Enforcement Agency workshop and Press Conference
Tuesday, Sep 3	09:00 - 16:00	Law Enforcement Agency workshop, Community/NGO leaders workshop and Exclusive Interview
Tuesday, Sep 3	19:00 - 22:00	Travel to Delhi by Flight
Wednesday, Sep 4	10:00 - 16:00	Law Enforcement Agency workshop and Press Conference
Thursday, Sep 5	10:00 - 16:00	Law Enforcement Agency workshop and Joint Action Committee formation meeting / Joint Press Conference
Friday, Sep 6	All Day	Tour India
Sunday, Sep 7		Return

PART 2

Appendix

Workshop deliverers

1. **Detective Bob Shillings**
   Coordinator Crimes Against Children
   INTERPOL Trafficking Human Being Directorate
   INTERPOL HQ,
   Lyon, France

2. **Ms. Janelle Blackadar**
   Toronto Police Service Sex Crimes Unit
   Child Exploitation Section
   Toronto

3. **Ms. Sarah Jane Mellor**
   Communications Manager
   INHOPE – International Association of Internet Hotlines

4. **Mr. Peter Reijnders**
   Program Manager
   NPKK - Nationaal Programma ter bestrijding van Kinderpornografie en Kindersekstoerisme
   (National Programme to Combat Child Pornography and Child sex tourism)

5. **Mr. Mohamed Mustafa Saidalavi**
   DISC Foundation
   India

Detective Bob Shillings

Coordinator Crimes Against Children
INTERPOL Trafficking Human Being Directorate

Detective Bob Shillings is one Seattle's premiere detectives leading the charge against childhood sexual abuse. Interpol has hand picked him to head up the cyber crime division that is the leading fighter in preventing child pornography & conviction of the perpetrators. The first American ever picked for this job!!!

Royal Canadian Mounted Police (RCMP)

NCECC (National Child Exploitation Coordination Centre)

The Royal Canadian Mounted Police's National Child Exploitation Coordination Centre (RCMP NCECC) in Canada is a CPP Global Reference Group partner. RCMP NCECC provides investigational support and specialized services to national and international law enforcement in cases involving ICT enabled child sexual exploitation.

As one of the original Steering Committee (now known as the Global Reference Group) members, RCMP NCECC is the body that advises on the law enforcement direction for CPP and shares expertise such as its experience with Microsoft's Child Exploitation Tracking System (CETS) tool. RCMP NCECC also connects CPP to its various affiliates like the Virtual Global Task Force (VGT), and the RCMP liaison officers working with local law enforcement in countries where CPP is implemented to broaden the reach and impact of CPP.

The mandate of the NCECC is to reduce the vulnerability of children to Internet-facilitated sexual exploitation by identifying victimized children; investigating and assisting in the prosecution of sexual offenders; and, strengthening the capacity of municipal, territorial, provincial, federal, and international police agencies through training and investigative support.

In January 2003 the Toronto Police Service (TPS) contacted Microsoft Corporation and asked for help in dealing with the problem of online sexual exploitation of children. An assessment of the situation revealed that improvements in Canadian law enforcement's efforts in some of these areas needed to be made. A software package called CETS resulted from the TPS/Microsoft partnership. Microsoft Canada's contribution to this initiative is valued at approximately $2.5 million.

RCMP-TLO's –Child Protection System

CPS pools criminal data from a variety of other sources such as IRC, Ares, Open FastTrack, eDonkey and Gigatribe. CPS features include target identification by IP range, task-force commander tools, and cutting-edge analytics.

Child Exploitation Tracking System (CETS)

CETS was developed by Microsoft Canada, RCMP and the Toronto Police Service following a personal e-mail plea from Toronto Police Detective Sergeant Paul Gillespie to Microsoft Chairman and Chief Software Architect Bill Gates in January 2003.

The new tracking system has already resulted in the November 2004 arrest of one alleged Toronto child pornographer. He was identified and targeted during beta testing of the computerized database and investigation system.

RCMP Presentation at VGT (Virtual Global Taskforce)

It was a promising event when Mr. Chris Purchas conducted a stunning presentation at last VGT 2012 conference in Abu Dhabi about "Technology solutions and Collaboration used in child exploitation investigations". We, as a capacity of an NGO really felt a promising future toward Combating Child

Exploitation. Further to our research we also found RCMP has involved early in this noble endeavour by engaging Microsoft for developing tools like CETS.

We can't conclude our communication without a heartfelt appreciation to RCMP for their continuous struggle towards this effort.

Ms. Janelle Blackadar
Toronto Police Service
Sex Crimes Unit – Child Exploitation Section

Education
Bachelor of Arts, 1993
York University
Toronto, Ontario

Toronto Police Service Employment & Experience

December 1995	Hired by Toronto Police Service
June 1996 – July 1998	13 Division, Primary Response Unit
July 1998 – May 2000	13 Division, Community Response Unit
May 2000 – May 2002	13 Division, Major Crime Unit
May 2002 – September 2006	Toronto Drug Squad West
September 2006 - Present	Sex Crimes Unit, Child Exploitation Section

- Specialize in undercover Internet investigations
- Undercover online investigations of hundreds of suspects worldwide.
- Assisted in identification and rescue of numerous children worldwide
- Instruct on Advanced Internet Child Exploitation Course, Canadian Peer to peer investigations course, Ontario Provincial Police and Alberta Integrated Covert online investigator's course.

July 2012	**Ontario Crown Attorney Internet Child Exploitation Crown School** London, Ontario
November 2012	**Toronto Police Child Exploitation Crown Conference** Toronto, Ontario

Court Experience & Testimony

In addition to preparing and handling criminal prosecutions through all levels of the court system, I have testified many times at both the Provincial and Superior Court levels, including testimony before sworn jury panels.

I have testified throughout the Greater Toronto Area, as well as the Northwest Territories.

International Training

In March and November 2009 I participated as an instructor to 80 Cambodian police officers regarding Child Exploitation Investigations. I was one of three police officers from Canada who participated in this training. Forty officers from Phnom Penh and forty officers from Siem Reap received training in March and November 2009. Additionally five officers attended the Toronto Police Service Sex Cimes Conference in October 2009. Officer received instruction erlating Child Sexual abuse, specifically in identifying victims, interviewing victims, and understanding police intervention. I specifically provided training on the use of computers by persons who have a

sexual interest in children. Officers were given training on how to preview images and videos on a computer, camera, memory card and other devices. Officers also received instruction on investigating sex tourists, and conducting searches for digital evidence. Additionally, I provided information regarding the number of persons suspected of peer to peer trading of child abuse images in Cambodia.

Disc Foundation
Introduction

The DISC (Developing Internet Safe Community) Foundation is a registered NGO initiated by a set of IT professionals and Social Workers from various parts of India and Middle East. The cyber world is inevitable to human life now. Nevertheless, there are numerous evils and traps awaiting children in it. As the usage of this technology has grown drastically in the last couple of years, the negative elements also have increased proportionately. Under these circumstances, the DISC Foundation was formed, to address the possible threats and vulnerabilities of Cyber Technology when it collaborates with the society as a whole.

Vision

- Children and Adults benefiting from a safe and clean "Cyber World"

Mission

- To act as a catalyst between the problem and resolution
- To develop and implement proactive programs for each issue
- To synergize with similar organizations

Objectives

a) Promote, develop, volunteer, implement and sponsor measures, strategies and policies for eliminating the presence and influence of apparent and inherent evil threats from the internet/digital cyber world.
b) Establish, maintain and carry on training centers, to create awareness through educational programs, campaigns, conferences, seminars and workshops for parents, teachers, psychologists, government authorities and general public; to prevent the society from all possible internet threats.
c) Develop, promote and sustain the positives aspect of cyber technology to empower human life and skills among the children and adults
d) Research and development of contents and programs for the safety of kids, young people and adults on the internet by using latest safety trends and technologies
e) Become a catalyst organization, which will work as an agency between technology and other social organizations by providing all the support of necessary safety and security measures of these technologies to these organizations
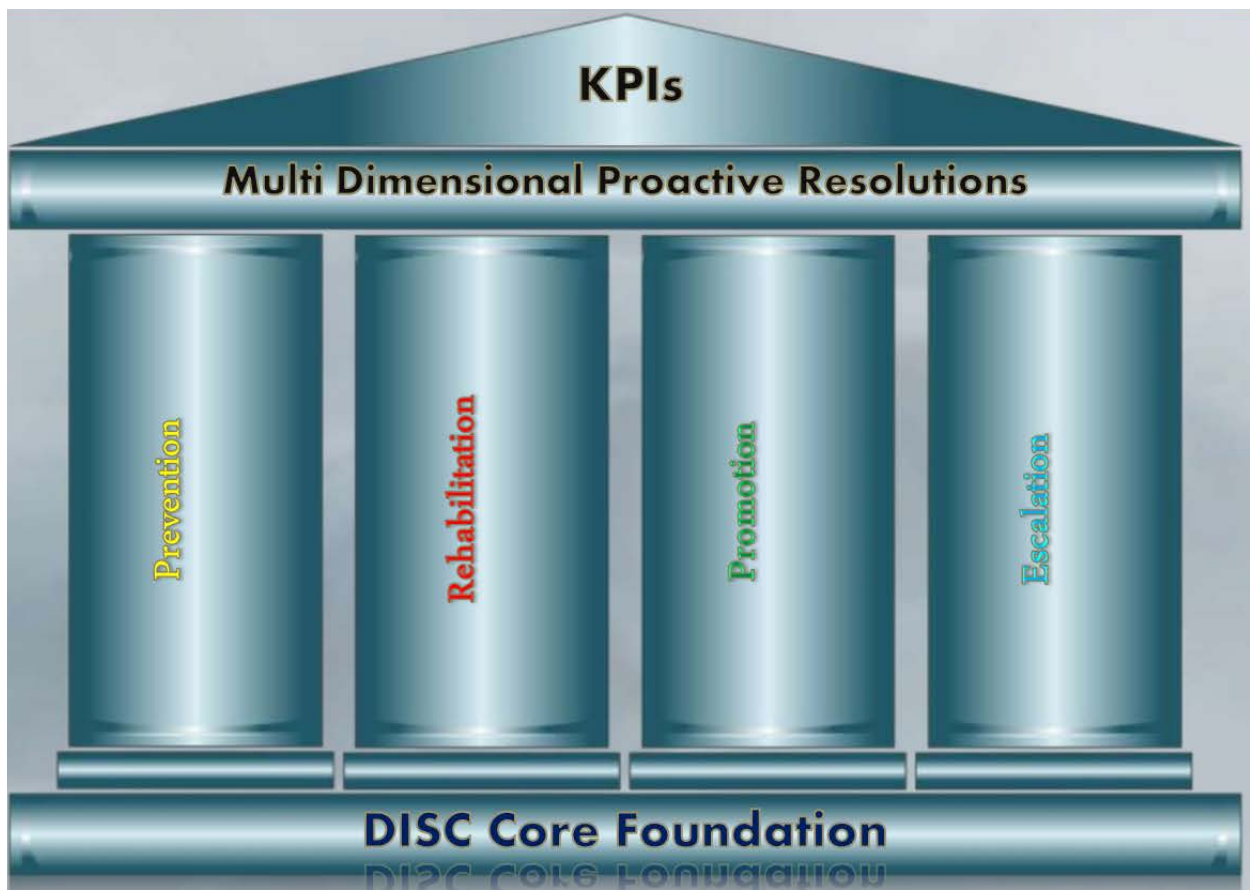

Recognition and support

- ITU (International Telecommunication Union) a United Nation Organization has recognized DISC Foundation and enrolled as a member to their Joint Coordination Activity on Child Online Protection. We are the first Civil Society Joining in this Consortium. For more information click visit http://www.itu.int/osg/csd/cybersecurity/gca/cop/

- European Union and Commission recognized DISC Foundation, to be a partner for their initiative Safer Internet Day in 2012
- European Union and Commission have requested DISC Foundation to be the Ambassador to these regions in 2012
- Other European Safer Internet organizations
- Kerala Government Social Welfare Department

DISC Methodology

4 Core functions

Prevention
- Prevent the society from all possible Internet threats
- By: Parents Awareness, School and collage wide pupil awareness, Visual media Campaigns / Programs, Internet Campaigns, Helpline/Hotline, Research / Statistics, Technical preventions, etc.

Rehabilitation
- Rehabilitate the victims, culprits from all possible addiction

- By: Counseling, Medical treatments, Helpline/Hotline, Diversion of internet to good part of the internet by doing aptitude test. etc.

Promotion

- Promote all good part of cyber technology to empower human life and skills
- By: Research, promotional campaigns, Visual Media and Internet Programs, Enabling cyber tool based curriculum, etc.

Escalation

- Escalate all possible cyber threats to appropriate authorities
- By: Research and statistics, summits, real life case studies, establishing advisory boards for governmental and Law enforcement agencies, etc.

Safer Internet Day

DISC Foundation is the official promoters of Safer Internet Day in India and UAE, Photographs of Safer Internet Day India can be found at
http://www.facebook.com/media/set/?set=a.327698410675645.67844.150145231764298&type=1

In UAE we have done 4 Days Safer Internet Day 2013 workshop at Khalidiyya Mall

DISC Foundation Europe Tour

As a result of DISC Foundation recognition by European organizations, the INSAFE and INHOPE two Cyber Safety entities funded by European Commission has invites 3 of our members to EUROPE (Germany, Holland, Luxembourg, France, and Switzerland) for a program called Expert Exchange Scheme. As part of the program the team has visited below organization and shared the knowledge about Children and Adults Safety on Internet

Visited Organization

- Unimedizine, Mainz
- KlickSafe.DE
- Jugendschutz.net
- German Hotline
- FragFINN
- Google, Berlin
- Hotline partner "FSM"
- German Media Authorities
- ECO.DE
- Dutch Police Conference "*An innovative approach against child abuse*"
- EUROPOL, EC3
- European Commission
- INTERPOL
- UNICEF
- ITU – COP
- WHO
- OHCHR

During this visit we have discussed the detailed plan of Law enforcement workshop with the deliverers from Amsterdam and INTERPOL HQ, Lyon

DISC Foundation CEO, Technology Advisor and Director – Prevention with Mr. Mick Moran Assistant Director INTERPOL and Mr. Chris Purchase at DUTCH Police Conference on The Next Generation 2013 An innovative approach against child abuse. This photo has being taken right after the discussion of this workshop

The Team with Mr. Mick Moran at INTERPOL HQ, Lyon. During this visit INTERPOL has extended their complete support to us on combating child abuse

Mr. Mick Moran is showing an illustration pasted in his notice board which he has taken from "DISC Foundation" website for his reference.

The detailed reports can be found at

CMAI.ASIA

CMAI Association of India is a professional registered association for promotion of Indian IT and Telecom Sector. CMAI is the only Integrated Association in India for IT and Telecom Sector having all stake holders as its members . It is an apex premier body with MOU partners and representatives all over the world.

Vision: To facilitate inclusive growth of the communications sector in India through participation of all stake holders including Service providers , Operators , Infrastructure providers and Vendors.

Mission: To create a platform, where all stake holders of Telecom/ IT Industry , Policy Makers and International Associations can work together in creating value for the Indian Telecom/IT Sector and in providing Quality yet Affordable Products and Services to the Indian consumers.

INHOPE

INHOPE is the International Association of Internet Hotlines.

It is an umbrella organization coordinating a network of Internet Hotlines all over the world, supporting them in responding to reports of illegal content to make the Internet a safer environment. INHOPE Members operate a public Hotline to receive complaints about apparent illegal content, they then assess the content in accordance with their national laws and if they consider it to be illegal they trace the material to a hosting country. If the content is illegal in the hosting

Country then the national Hotline takes steps to have the material 'taken down' in consultation with their law enforcement partners. As the definition of illegal content varies from country to country the landscape is quite complicated as to what practical measures can be taken. But in the case of child sexual abuse material there is a global consensus on tackling the problem and so all INHOPE Members have a common purpose which is to remove child sexual abuse websites from the Internet as soon as possible.

INHOPE's Mission

To support and enhance the performance of Internet Hotlines around the World; ensuring swift action is taken in responding to reports of illegal content making the internet a safer place. To achieve this mission, INHOPE has five specific objectives:

➜**To establish** policies and best practice standards for hotlines and encourage exchange of

Expertise among members through fostering good working relationships and trust.

➜**To ensure** rapid and effective response to illegal content reports around the world by

Developing consistent, effective and secure mechanisms for exchanging reports between Hotlines internationally and ensuring a coordinated approach is taken.

➜**To expand** the network of INHOPE Hotlines around the world by identifying and

Supporting new Hotlines to become members by providing consultation and training to Meet best practice standards.

➜**To promote** a better understanding of the work of hotlines to policymakers at an

International level, including government, law enforcement and other related bodies, with The aim of achieving better co-operation internationally.

➜**To raise awareness** of INHOPE and member hotlines with key stakeholders as well as

The general public as a "one stop shop" for global reports of illegal content from around The world especially Child Sexual Abuse Material.

Key functions

- ✓ **Exchange expertise**
- ✓ **Support new hotlines**
- ✓ **Exchange reports**
- ✓ **Interface with relevant initiatives**
- ✓ **Educate and inform policy makers at the international level**

Case Studies

Case 1

Information supplied to the Australian Hotline by the UK Hotline led to the arrest of an Australian male.

He was charged with one count of using a carriage service to access Child pornography material, one count of distributing child exploitation material, two counts of making child exploitation material and five counts of possessing child exploitation material.

Case 2

One of our Members received an anonymous report concerning child sexual abuse websites hosted in Germany.

Information was exchanged between two Hotlines. An Analyst was checking the relevant website and witnessed an announcement of new images and videos. This information was passed to law enforcement officers in two different countries. As a consequence an offender was identified and arrested and later was sentenced To seven years in prison.

Case 3

A US Analyst viewed sexually abusive images and videos of an unidentified female child.

An adult male was depicted in the videos, in which only the side of his face was seen. Following further work it was established that the material was produced in a specific area of the UK.

Open source searches on the internet located images of the suspect which appeared consistent with the sexually abusive images. Police Officers also identified the child Victim. The offender concerned was the father of the victim. The suspect was sentenced to 15 years for sexual assault and distribution of child sexual abuse material.

Case 4

Operation Carole, coordinated in Austria but started in Luxembourg with an investigations stemming from an anonymous report to the local Hotline. This operation led to 670 suspects worldwide being identified, followed by 456 arrests in many different countries.
